## ABOUT ME

I am a passionate and dedicated full-stack engineering student with a solid foundation in both front-end and back-end development. Currently pursuing a comprehensive understanding of modern web technologies, I have learnt languages such as JavaScript, HTML, CSS, and frameworks like Bootstrap, React, Node.js, and Express. I am eager to apply my skills in building responsive, user-friendly applications and optimizing server-side functionality. Through my previous work experiences, I've developed a strong problem-solving mindset, attention to detail, and the ability to collaborate effectively in a team environment. I am constantly learning and excited about the opportunity to contribute to innovative projects in the tech industry.
